

Communication Plan

Date	July7, 2026
Name	Khushboo Meena
Project Name	CaptionAI: AI-Powered Social Media Caption Generator

Communication

The communication report is provided in the table below.

S.No	Type of Communication	Purpose	Frequency	Mode / Channel	Audience	Owner
1	Project Planning	Define project objectives, development roadmap, and milestones.	Project Start	Personal Planning / Documentation	Self	Project Developer
2	Requirement Analysis	Analyze project requirements, AI model capabilities, and application features.	Before Development	Project Documentation	Self	Project Developer
3	Development Progress Review	Review the progress of the project, verify completed tasks, and identify any improvements required during development.	Daily	Visual Studio Code, Personal Notes, GitHub	Self	Project Developer
4	Technical Research	Research Flask, Groq API, and AI technologies to improve application functionality and performance.	As Required	Official Documentation / Internet	Self	Project Developer
5	GitHub Repository Management	Maintain source code, commit updates, version control, and project backup.	Throughout Development	GitHub	Self	Project Developer

6	Testing and Bug Tracking	Test application features, identify bugs, and verify fixes before deployment.	Testing Phase	VS Code / Browser	Self	Project Developer
7	Deployment Review	Verify Flask application deployment using Ngrok and ensure public accessibility.	Before Final Submission	Flask & Ngrok	Self	Project Developer
8	Documentation Preparation	Prepare the project report, README, screenshots, diagrams, and supporting documentation.	Before Submission	MS Word / PDF	Self	Project Developer
9	Performance Evaluation	Validate AI-generated captions, hashtags, CTAs, response quality, and application performance.	After Feature Completion	CaptionAI Application	Self	Project Developer
10	Final Project Demonstration	Review the completed application, verify all requirements, and prepare for project evaluation and viva.	Project Completion	Local Application / Presentation	Evaluator	Project Developer
